About Us

ZHEJIANG AOSKER FLUID CONTROL CO., LTD. is a manufacturer integrating R&D, production and sales which provides one-stop service and solution for plumbing, heating and refrigeration systems of the global market. We are mainly specialized in producing safety valve, pressure reducing valve, automatic air vent, auto filling valve, combined air separator, assembled wall mounting manifold etc. A series of valves are used in many lines of works, such as heating system, hotwater system and solar system.

Our company has fully implemented ISO9001:2000 international quality management system. Quality is our company's prime concern and our competitive edge is based on competitive price, good service, reliable quality, and on-time delivery.

Warmly welcome to visit us and sincerely hope to cooperate with you!

1987

Founded In 1987

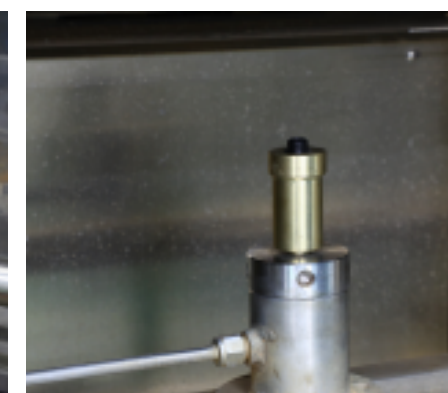

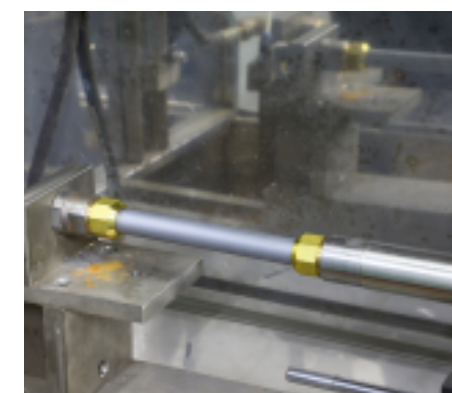

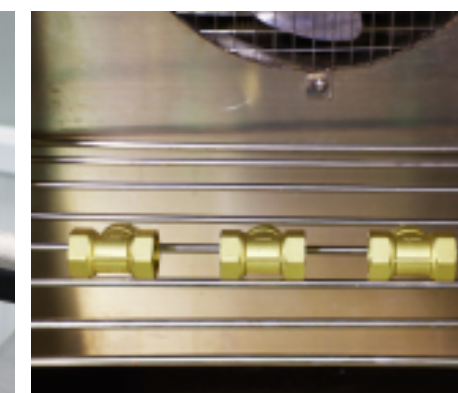

2000⁺

Thousands Of products

50⁺

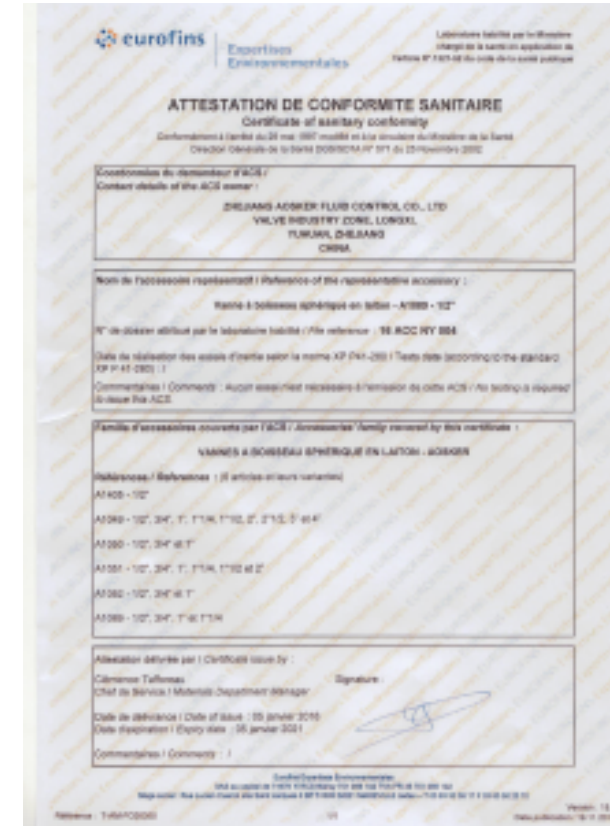

More Than 50 Series products

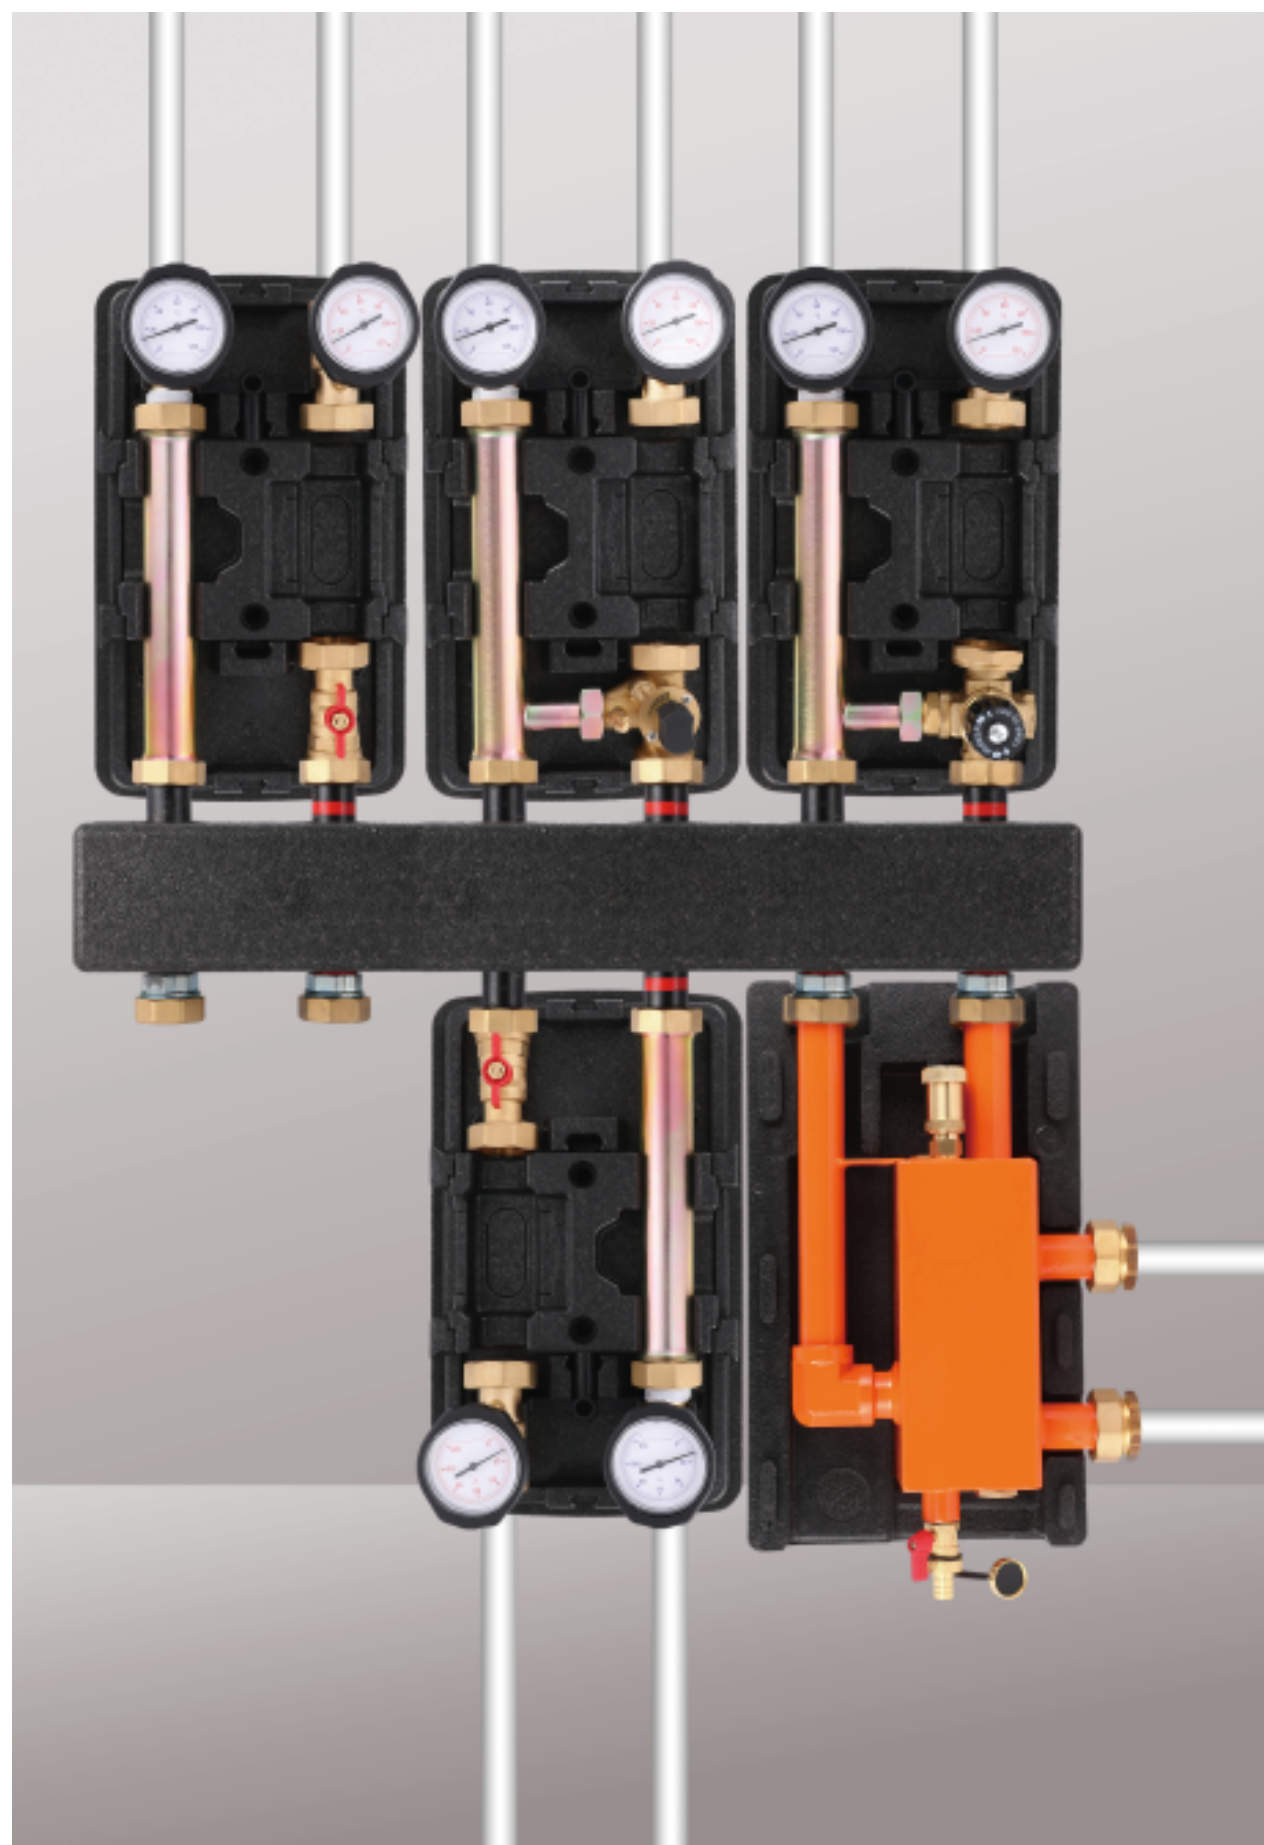

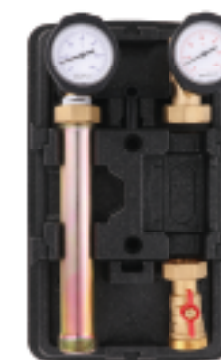

Our efforts to the product development,introducing of excellent equipment and modernize administration, not only bring a variety of high quality goods, but bring incomparable market shares and customer satisfaction.
